BIOL 3840/5840 - ENTOMOLOGY FALL 2013 SYLLABUS & COURSE POLICIES

Lecture: BC 2022 (10-10:50 a.m. M, W, F)

Laboratory: BC 2071 - Section A, (9:30 – 12:20 Th); Section B (11-1:50 F)

Instructor: Dr. Mark Blackmore

Office: BC 2218, Tel. 259-5114; email = mblackmo@valdosta.edu

Office Hours: M, W 11:15-12:00 or by appointment

Research Lab: BC 2060, Tel. 245-6422

Course scope and objectives: This course is intended to introduce the student to the study of insects, their biology, ecology and behavior. Factors contributing to the diversity and success of these arthropods and their interactions with humans will be emphasized. Students are expected to learn the characters used to identify the more common and important North American taxa and to assemble a broadly representative collection of locally-occurring species. These correspond to Department of Biology Educational Outcomes 2 ("Describe the evolutionary processes responsible for biological diversity, explain the phylogenetic relationships among the major taxa of life, and provide illustrative examples") and 5 (Interpret ecological data pertaining to the behavior of the individual organism in its natural environment; to the structure and function of populations, communities and ecosystems, and to the human impacts on these systems and the environment.")

Catalogue Description: BIOL 3840/5840 Introduction to the study of insect biology including ecology, behavior and taxonomy. Laboratory includes field observation, sampling and identification of local fauna. 4 credit hours. Prerequisite: BIOL 1107K, BIOL 1108K; admission to graduate program (BIOL 5840 only).

Texts: Fundamentals of Entomology 6th ed. by R. J. Elzinga; recommended references An Introduction to the Study of Insects 6th ed. by Borror, Triplehorn & Johnson and Insects, Spiders and Other Terrestrial Arthropods by George C. McGavin.

Course requirements & gra ny2(Tw 9.9s)11S 9. 9.91avin

Special needs: Students requesting classroom accommodations or modifications due to a documented disability must contact the Access Office for Students with Disabilities located in Farber Hall. The phone numbers are 245-2498 (V/VP) and 219-1348 (TTY).

Tentative Lecture Schedule - Fall 2013

Lecture Topics	Assigned Reading in Elzinga
Introduction: Why study insects?	Preface & handouts
Overview of Arthropods	Ch.1
Insect Body Plan: External Characteristics	Ch. 2
Insect Body Plan: Internal Characteristics	Ch. 3
Development & Specialization	Ch. 4
Insect Ecology	Ch. 5
Behavior & Sociality	Ch. 6 & 7
Parasitism & Predation	Ch. 8 & 9
Interactions with the Human World	Ch. 10
Pest Management & Household Insects	Ch. 11 & 12

Tentative lecture exam dates: Sept. 11, Oct. 16, Nov. 18. Final exam 8-10 a.m., Friday Dec. 6

Tentative Lab Schedule (subject to weather conditions)

Week Beginning August 12	Topic/Activity Distribute equipment, Local Collecting	Assigned Reading Ch. 13 & 14
August 19	Keys; Classification; Phylum Arthropoda; External	pp. 10 & 21;
August 26	morphology of insects Quiz 1; Apterygota, Ephemeroptera &	362-364 pp. 374-383
Sept. 2	Odonata; Collecting trip Aquatic collecting trip	

Isoptera, Dermaptera, Plecoptera Phthapterans & Thysanoptera; Collecting trip pp. 399-414

. 415-429

pp. 389-399

Oct. 7

2

BIOL 5840: Graduate students will complete the following work <u>in addition to</u> assignments described above:

- (1) Prepare two 10-15 minute PowerPoint presentations on topic assigned by instructor. These will be presented
- to the class during one of the lecture periods.

 (2) Collate sampling data from class collections and prepare a report in the style of the Journal of Medical Entomology.
