COMMUNICATION:

Email: Email is the simplest way to contact me outside of class and is the quickest way for me to contact you as well. You are required to check and maintain your Valdosta State University email account. I will only communicate with you through this official email account. In the subject line of the email please write the course number so I know to which course your question is in reference to. **DO NOT** email me through Blazeview.

How to write an email:

When writing an email to a professor it is important to show respect for both yourself and the professor. The form of the email should be as follows:

Body of text....

Sincerely,
Your Name

The email should have proper spelling and grammar (NO TEXT SPEAK), address the professor, and have an appropriate sign off (e.g. sincerely, thank you, yours truly...). Failure to write an email correctly may result in the email going unanswered. As prospective teachers it is important to be respectful and polite and be an example of this to your students.
