BIOL 1200 HISTORY OF THE LIFE SCIENCES Spring 2021 SYLLABUS & COURSE POLICIES

Lecture: TR : An introduction to the history and philosophy of biology and related sciences. The development and evolution of major theories and techniques, and interactions between science and culture will be emphasized.

Scope & Objectives: By the end of the course students are expected to be able to describe the development of the life sciences as a form of inquiry including major paradigm shifts and their consequences. Students will also explain how technological developments have affected human understanding of the living world and recognize the impact advances in biological knowledge have had on society and human culture. This corresponds to Educational Outcome 1 (Develop and test hypotheses, collect and analyze data, and present the results and conclusions in both written and oral formats used in peer-reviewed journals and at scientific meetings.) for the Department of Biology as listed in the current VSU catalogue. 3 credit hours. and aamdarud for fiscate (en).12.2 (a))-7 (6063)-20.1ycture . The i

e students or to offer makep examinations. Students with valid, imediate family) may receive special consideration but must ovide documentation if asked.
