*A grade of C or higher is required in both lecture and lab!

Course Description: A laboratory course to accompany BIOL 1107 lecture, with exercises dealing with the cellular nature of life.

This is a Core IMPACTS course that is part of the Technology, Mathematics & Sciences area.-13(e2 re u*)7(t)7

Core IMPACTS refers to the core curriculum, which provides students with essential knowledge in and career goals.

This course should direct students toward a broad Orienting Question:

How do I ask scientific questions or use data, mathematics, or technology to understand the universe?

Completion of this course should enable students to meet the following Learning Outcome:

Students will use the scientific method and laboratory procedures or mathematical and computational methods to analyze data, solve problems, and explain natural phenomena.

Course content, activities and exercises in this course should help students develop the following Career-Ready Competencies:

^{**}Lecture and Lab are separate. Success or failure in one does not guarantee the same result in the other

Required Laboratory Manual: R. H. Goddard. *Methods and Investigations in Basic Biology* (Custom VSU manual). 7th Edition. ISBN: 978-1-5339-4342-
